

Free Speech We Must Preach

Why would anyone vote for these guys?

- Mark Jursic -
- Cut a deal with JoJo not to run against him.
 - Stopped the Walking Boss hiring process with a Section 13.3 on behalf of a few Officers and a couple of Bosses whose kids weren't included.
 - Against the W/B Board at Local 13 and working with Danny Miranda to continue the on-the-job elevation shape-up.
 - Told the Executive Board drug testing was coming, and told some Officers random testing could be used to get raises. (Is it a cop thing?)

or

- JoJo Cortez -
- Cut deal with Jursic not to run against him.
 - Must be ready to retire. Why give up his 4-hour job to run for VP?
 - If JoJo wants to retire he should run for Sargent-at-arms.

or

Andy Kusich - Must be running so he can put his wife on the payroll, for the 3rd time.

Mendoza #5510 for President

I am Eric #7519 Aldape, and I am running for Night Business Agent.

My labor relations degree was earned from the College of Pick & Shovel, and I have been kicking JPLRC ass since 2008. Check out CLRC #21-12, it puts an end to members filing complaints against members. (Right Victor?)

The July 1, 2014, LOU re Proper Application of Section 13, the Crane Board Make Whole Agreement, and the 22 shift limit on dock work, are all a result of my fliers.

In my last 18 months on the Executive Board I have not heard 1 Night BA report. It looks like there is no representation on the night side.

Right now I am on another year off work because of the WB shape-up cartoon I did last August, and as of January 20, 2017, Local 23 has refused to dispatch me to the non-PMA rail ramp. (A real show of Solidarity?)

Because the ILWU does not allow free speech, I am on my 3rd year off work because of my political cartoons. (This time thanks to Danny Miranda.)

No one is more motivated than me to push back Superintendents and bring back representation for the night side Brothers and Sisters.

Make me your night BA, and turn me loose on the Employers.
