Re: Petition to revoke subpoena Case 19-CB-190139 et al

Kindly consider this petition to revoke Rob Remar's subpoena served upon me on September 18, 2017.

All the information requested has been provided to the NLRB investigators, if it pertains to the matter in question in the proceedings. The rest of the request does not relate to any matter in question in the proceedings.

As regards the request that I attend, I will be present as requested by the Region.

JT
